**The Fen  
Rivers  
Academy**

Part of The Catch22  
Multi Academies Trust

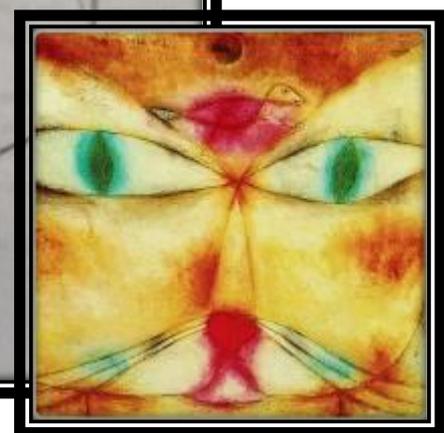

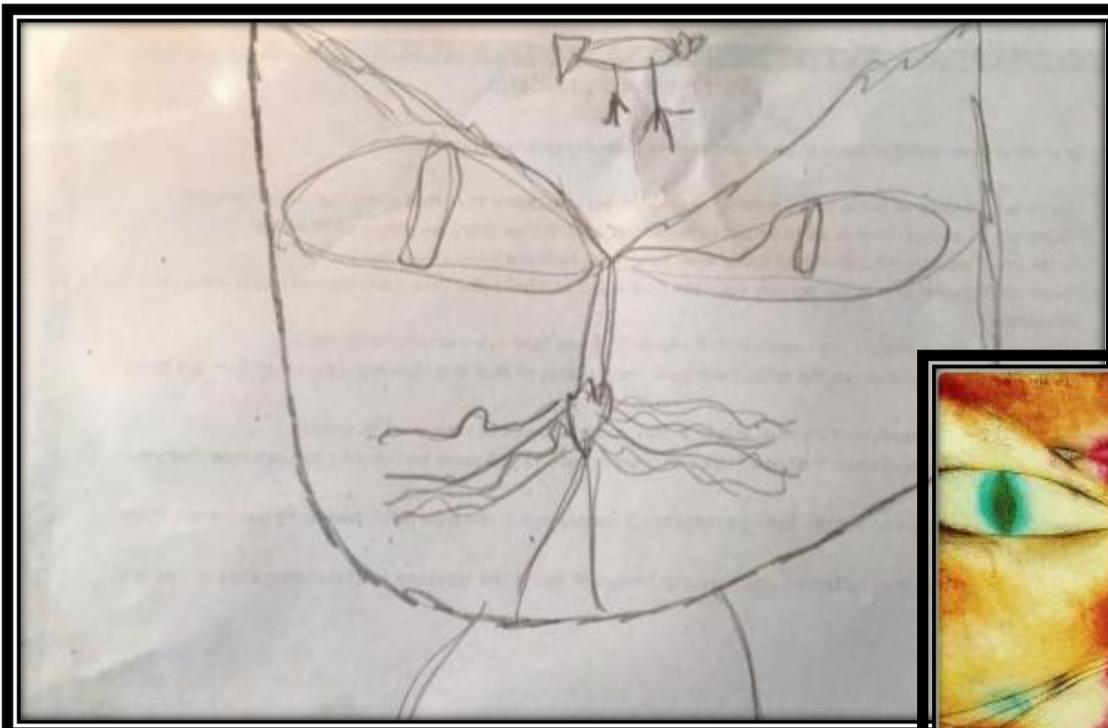

Issue 28 05/03/21

Another week at Fen Rivers has gone by. How can it be March already? Time is flying and lots of learning has been done this week too!

Hedgehogs have been letter writing. This letter is from Mr Frog asking to stay in the Palace Pond. It is full of lovely cold water! Such polite manners asking the Princess.

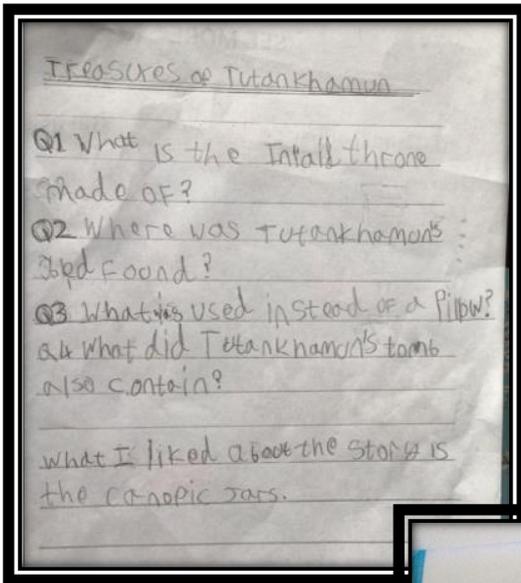

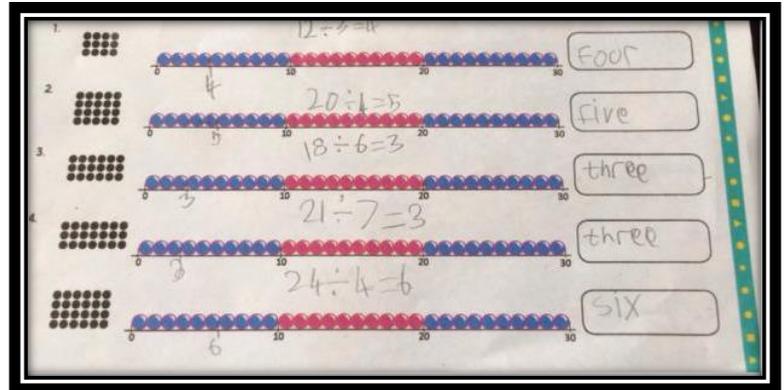

They have also looked at the art work of Paul Clee. He as a Swiss-born German artist. His highly individual style was influenced by movements in art that included expressionism, cubism, and surrealism. You can watch a video of how to draw his cat painting [here](#).

Manipulatives can help us do our maths. Beads strings are amazing to help with division. This is shown in this piece of work! They have used arrays to help too and written the answer in words. Brilliant maths!

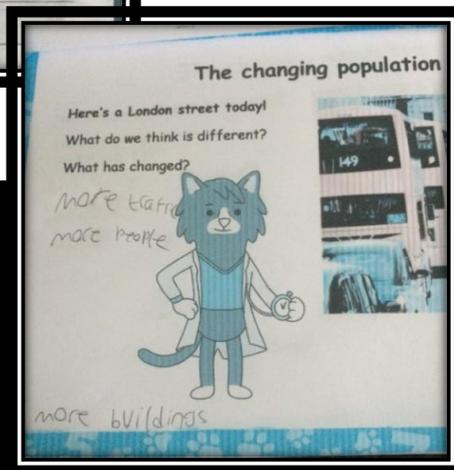

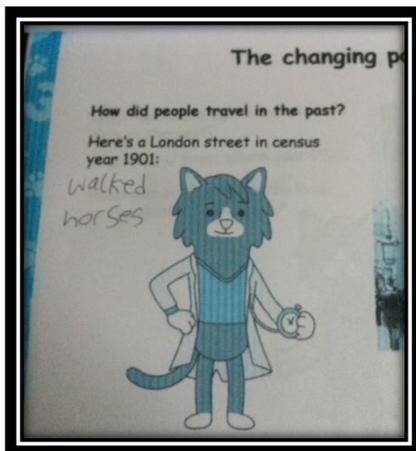

Enquiry and questioning lies at the heart of history. Understanding the past involves a process of enquiry, where we examine sources about the past. These questions were asked by a pupil at Fen Rivers about the Treasures of Tutankhamun. You can then

internet to find out

use the more. It's a lovely time

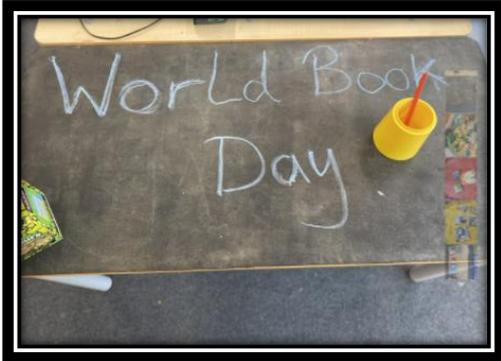

Koala has done. I wonder if you can spot any oak trees? Oak trees have acorns on them.

On March 21<sup>st</sup> this year, there will be a census. It looks at the changing population and the way people live. Dolphins have looked at the changes in transport this week and how people's habits and modes of travel have changed over time. Make sure everyone in your house contributes to the Census on the 21<sup>st</sup>.

## School News

World Book Day was on 4<sup>th</sup> March this year and what a great day the children had.

The focus of our World Book Day this time was maths. All classes picked a book and

found lots of maths topics in there.

This class celebrated with dinosaurs: they looked at size, pattern, ordering, measurement and making small world play with the dinosaurs. Looks like amazing fun!

Polar Bears had fun looking at Spinderella, doing lots of counting, calculations and even

searching for right angles! A successful day right throughout Fen Rivers!
