Newsletter week beg 19/04/2021

Another busy week for us in school again.

Dolphins have been busy tent building in Forest Schools. Some have been balancing and improving core strength on the tight rope and others even helped Nicola prepare for the next lesson by hiding dinosaurs for her!

Tigers have been training to be Super Heroes and running very fast!

An important message from X Box:

From the 21st April there will be changes to Xbox live gold.

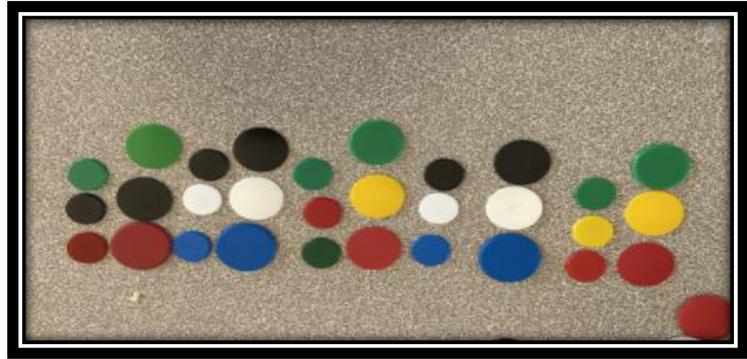

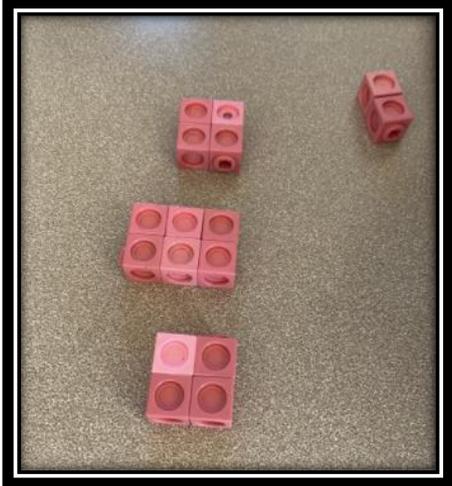

All Xbox players can access online multiplayer games at no charge this means that Fortnite and Roblox will not need a live subscription this will mean that children will have access to talk to people. This will happen automatically, parents will not need do not need to do anything. We are advising parents/carers to check their settings to help ensure their children's online safety.

Polar Bears made their own shields to celebrate St George's Day on the 23rd April. He was the patron saint of England. He is often symbolised by the red and white cross. Can you remember what else is used? Clue: it breathes fire!

The staff have been busy this week training on The Pattern Project.

This project is designed to help with all areas of maths and will be introduced into school very soon. Watch this space!
