Issue 35 - 04/05/2021

Hope you all had a relaxing Bank Holiday weekend. The weather certainly knew it was

a bank holiday! Torrential rain!

A busy week in school once again. Tigers learnt about the work house and what life was like in them. They looked at photos like these and we thought about what it was like for the men, women and children who lived in them. Then we made gruel but no one was brave enough to taste it!

Forest Schools was action packed as always. Dolphins tried to build a chute to roll a tyre down: and it was very successful! Not sure how successful it was rolling it back again!

This Elephant managed to negotiate the tightrope for the first time! It takes a lot of balance and coordination to cross the rope without falling off. Well done!

This student managed to collect a whole heap of blossom that had fallen from the trees during the storm last week. Who remembers trying to make perfume from it when they were young?

Tigers had a great game of outdoor

hide and seek this week. The forest area certainly has enough great places to hide. Nicola also let them use the camouflage net to help them hide! Here is the seeker counting.....1,2,3.....

They also had binoculars to help them to look for each other.

What else did Tigers spot with the binoculars?

We saw birds, insects, leaves on trees and many more.

Elephants also tried to construct a pulley system from rope. Science and forces learnt in the

forest area. We use the area for all areas of the curriculum and for break times too. It is undoubtedly the most popular area in school!

A woodland shop being constructed too. Maths, speaking and listening, customer service all in a day's work at Fen Rivers!
