## School News

Issue 37 - 17/05/2021

Wow! What a busy week we have all had. The school has been buzzing with all the exciting activities and the sun has attempted to shine!

Tigers and Elephants have designed kites as part of their English work this week. They read the story, 'How to Catch a Star' by Oliver Jeffers. The character wanted to fly to the stars. Where would you like to fly to on a kite?

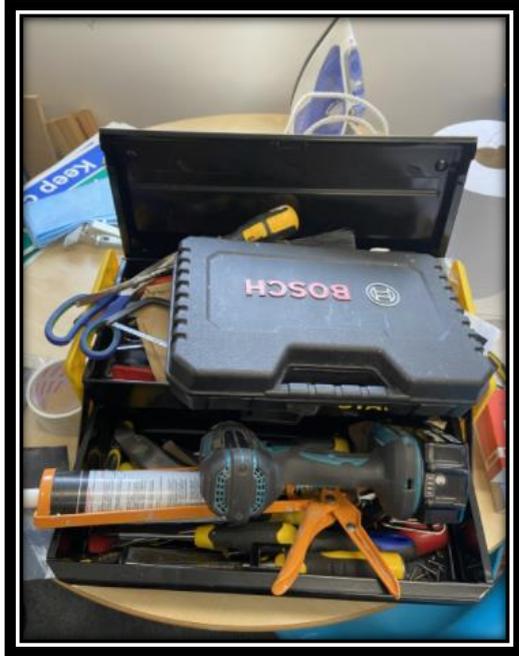

During our motional time, Elephants have been talking about sadness. They painted what sadness looks like to them. On the picture below, sadness is the blue spot.

This amazing picture is from Number's Day. Elephants looked at 'Alien's in Underpants Save the World'. Then they used our Pattern Project to design underpants.

Don't they look amazing!

Our site manager has also been super busy this week with his power tools repairing and maintaining the school. Thank Mr Parker for your hard work!

Let your class team know if you spot anything that needs fixing and Mr Parker will be on it!

Miss Tirado has loved this story. The story of 'the Little Mole who knew it was none of his business'.

They listened to the story and then used clay to make models of the characters.

Can you guess which one is Miss T's?

Forest Schools have been super busy too. Tigers have done some balancing. Miss Miguel was on the see saw and Tigers wanted to know what would be heavier and lighter.

They also found a rabbit skull. One of our students was fascinated with it and we then went back to class and researched about rabbits. He discovered why rabbits have sharp front teeth and long jaws. Rabbits have adapted over time to develop such sharp teeth.

Shapes and textures of leaves were also investigated this week. Can you name the plants?
