Part A: Pupil premium strategy plan

Statement of intent

We will use pupil premium funding to help us achieve and sustain positive outcomes for our disadvantaged pupils. Whilst socio-economic disadvantage is not always the primary challenge our pupils face, we do see a variance in outcomes for disadvantaged pupils across the school when compared to their peers (and those who join us at similar starting points).

Our key aims are:

- For all of our pupils in the school to fulfil their full potential academically
- To develop our pupil's social communication skills, to enable them to learn to build and sustain healthy relationships
- To build our pupils resilience and support their emotional wellbeing
- To support pupils with emotionally based school avoidance to re-engage with school
- To develop out pupils' independence skills in order that can contribute positively to the wider community going into adulthood

At the heart of our approach is high-quality teaching focussed on areas that disadvantaged pupils require it most, targeted support based on robust diagnostic assessment of need, and helping pupils to access a broad and balanced curriculum. Although our strategy is focused on the needs of disadvantaged pupils, it will benefit all pupils in our school where funding is spent on whole-school approaches, such as interventions to support emotional wellbeing and self-regulation. Implicit in the intended outcomes detailed below, is the intention that outcomes for non-disadvantaged pupils will be improved alongside progress for their disadvantaged peers. We will also provide disadvantaged pupils with support to develop independent life and social skills and that careers guidance and further and higher education guidance is available to all. Our strategy will be driven by the needs and strengths of each young person, based on formal and informal assessments, not assumptions or labels. This will help us to ensure that we offer them the relevant skills and experience they require to be prepared for adulthood.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1.	Pupils' ability to self-regulate and readiness for learning
2.	Social communication skills
3.	Mental Health - High anxiety, low self-esteem
4.	High percentage of pupils with below average reading age
5.	Difficulties accessing physical, social and cultural experiences in the community

Intended outcomes
