Positivity

Name of Document	The Bridge Trust Safeguarding and Child Protection Policy (Islington Schools)
Status	APPROVED
Date Approved	September 2025
Policy Approver	Trust Board of Directors
Policy Owner	Barney Geen, Head of School Improvement and Trust Designated Safeguarding Lead
Policy Author	Barney Geen, Head of School Improvement and Trust Designated Safeguarding Lead
Next Review Date	July 2026

Please note that all Trust policies are reviewed annually. Should you have any queries regards this policy, note an omission or wish to propose an amendment, please email mattheweldon.lake@thebridgetrust.academy

Flowchart

(please also see Flowchart on Page 24 of KCSIE 2025)

What to do if you have a safeguarding or welfare concern

1. Introduction and Ethos

1. Safeguarding and promoting the welfare of children is everyone's responsibility. Everyone who comes into contact with children has an important role to play.
2. School and college staff are particularly important as they are in a position to identify concerns early, provide help for children, promote children's welfare and prevent concerns from escalating. It is important all staff (including those who do not work directly with children) recognise the important role they play in protecting children¹
 - a. The Bridge Trust recognises the importance of creating and maintaining a safeguarding culture that will help all pupils to feel safe, secure and respected; encourage them to talk openly; and enable them to feel confident that they will be listened to. We are committed to providing an environment where children can play, learn, develop and achieve and where they are safeguarded and are enabled to disclose if they are being harmed in some way. We are alert to the signs of abuse and neglect and follow our procedures to ensure that all pupils receive effective support, protection and justice.
 - b. We recognise that some children may be especially vulnerable to abuse. We understand that children who are abused or neglected may find it difficult to develop a sense of self-worth and to view the world in a positive way. Behaviour may be challenging and or concerning and at times this may impact on other children either directly or indirectly. We will always take a reflective, considered and sensitive approach in order that we can support all of our pupils.
 - c. Our Setting's core safeguarding principles are:
 - That schools are an important part of the wider safeguarding system for children.
 - It is a whole school responsibility to safeguard and promote the welfare of children
 - All children (defined as those up to the age of 18) have equal rights to protection regardless of age, gender, ability, culture, race, language, religion or sexual identity
 - All children have a right to be heard and to have their wishes and feelings taken into account
 - All staff understand safe professional practice and adhere to our code of conduct and other associated policies
 - All staff have a responsibility to recognise vulnerability in children and act on any concern in accordance with this policy

Please note that the procedures contained in this policy apply to all staff (including teaching and non-teaching, temporary staff and volunteers) and governors and are consistent with the [London Safeguarding Children Procedures](#)

2. Definitions

²Safeguarding is not just about protecting children, learners and vulnerable adults from deliberate harm, neglect and failure to act, other aspects of care and education are related:

- children's and learners' health and safety and well-being, including their mental health
- meeting the needs of children who have special educational needs and/or disabilities (SEND)
- the use of reasonable force
- meeting the needs of children and learners with medical conditions
- providing first aid
- educational visits
- intimate care
- emotional well-being
- online safety and associated issues

¹ Keeping Children Safe in Education (DfE, 2025)

² [Inspecting safeguarding in early years, education and skills - GOV.UK \(www.gov.uk\)](#)

- appropriate arrangements to ensure children’s and learners’ security, taking into account the local context

Within this document

- Safeguarding is defined as:
 - Providing help and support to meet the needs of children as soon as problems emerge
 - protecting children from maltreatment, whether that is within or outside the home, including online
 - preventing the impairment of children’s mental and physical health or development
 - ensuring that children grow up in circumstances consistent with the provision of safe and effective care, and
 - taking action to enable all children to have the best outcomes
- Child Protection is an aspect of safeguarding but is focused on how we respond to children who have been significantly harmed or are at risk of significant harm.
- Staff applies to all those working for or on behalf of the setting, full time or part time, in either a paid or voluntary capacity. This also includes local governors.
- Child refers to all young people who have not yet reached their 18th birthday or Looked After Children and children and young people with SEND who have not yet reached their 25th birthday. The policy will also extend to visiting children and students from other establishments.
- Parent refers to birth parents and other adults in a parenting role for example adoptive parents, step-parents, guardians and foster carers.
- Abuse could mean neglect, physical, emotional or sexual abuse or any combination of these. Parents, carers and other people can harm children either by direct acts and / or failure to provide proper care. Explanations of these are given within the document and appendices 1 and 2.

3. Context

- a. This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004 and related guidance (see below). In addition, Section 175 (Section 157 for academies and independent schools) of the Education Act, 2002 requires governing bodies of maintained schools and further education colleges (including sixth form colleges) to ensure they safeguard and promote the welfare of children who are either pupils at the setting or who are students under 18 years of age attending the further education institution. KCSIE 2025 states that colleges include providers of post-16 education, 16-19 academies, special post-16 institutions and Independent Training Providers.

Guidance includes the following and the links in Appendix 6 and 7:

- [Working Together to Safeguard Children 2023](#)
- DfE guidance [Keeping children safe in education 2025 \(publishing.service.gov.uk\)](#)
- [Teaching online safety in Schools \(DfE, 2023\)](#)

- <https://www.gov.uk/government/publications/mandatory-reporting-of-female-genital-mutilation-procedural-information>
- [The right to choose: government guidance on forced marriage - GOV.UK \(www.gov.uk\)](#)

- b. All safeguarding policies will be reviewed on an annual (minimum) basis by the Board of Directors which has responsibility for oversight of the safeguarding and child protection systems. Each Headteacher will ensure regular reporting on safeguarding activity and systems in the school to the Trust and Local Governing Body. The Local Governing Body will not receive details of individual pupil situations or identifying features of families as part of their oversight responsibility.

- c. We are aware that safeguarding is fundamental to the welfare of all children in our care. This policy is therefore one of a series in the school's integrated safeguarding portfolio and should be read in conjunction with any related policies. Please also see Part 1 and Annex B of KCSIE 2025.

All staff and volunteers at The Bridge Trust recognise that children experiencing specific safeguarding issues are no different to safeguarding against any other vulnerability or concern and will respond in the same way as they do to protect children from any other risks.

- d. Supporting Guidance (to be read and followed alongside this document)

1.

- e. These documents linked above can also be found here in staff room and our shared network (the landing page). They are also available to access via the [Trust website](#)

4. Safeguarding and Child Protection Procedures

- Any member of staff, volunteer or visitor to a Trust school who is aware of a disclosure or allegation of abuse, or suspects that abuse may have occurred **must report it immediately to the DSL** (or, in their absence, the deputy DSL). See flowchart '[What to do if you are worried about a child/young person](#)' on page 5 and the flowchart on Page 24 of KCSIE 2025.
- The DSL will immediately refer cases of suspected abuse or allegations, by telephone, to the CSCTReferrals@islington.gov.uk Children's Services Contact Team (CSCT) in Islington on 0207 527 7400 or the local authority where the child lives. Within one working day of a referral being made, a local authority social worker should acknowledge its receipt to the referrer and make a decision about the next steps and the type of response that is required) See <https://www.gov.uk/report-child-abuse-to-local-council> for local authority child protection referral contact details.
- ³It is not necessary to seek consent from parents/carers to share information for the purposes of safeguarding and promoting the welfare of a child provided that there is a lawful basis to process any personal information required. In the spirit of collaboration, where possible, our schools will share any safeguarding concerns, or an intention to refer a child to Children's Social Care, with parents or carers. However, we will not do so where it is felt that to do so could place the child at greater risk of harm or impede a criminal investigation. On occasions, it may be necessary to seek advice from CSCT and/or Police in making decisions about when it is appropriate to share information with parents / carers.
- If a member of staff continues to have concerns about a child and feels the situation is not being addressed or does not appear to be improving, they should press the DSL for re-consideration of the case in order to reassure themselves the child is safe and their welfare is being considered. If after following this process, the staff member

³ Working Together To Improve School Attendance 2024

remains concerned that appropriate action is not being taken, it is the responsibility of that person to seek further direct consultation from the Headteacher or a Trust contact listed on page 4.

- If after a referral to CSC a child's situation does not appear to be improving, the DSL will request reconsideration to ensure that the referral concerns have been addressed and, most importantly, that the child's situation has improved. Professional disagreements (escalation) will be responded to in line with the ISCP procedures and DSLs may request support via the Principal Officer Safeguarding in Education (POSIE).
- These procedures apply to all staff working/volunteering in the Setting and will be covered in training to enable everyone understands their role and responsibility. The prime concern at all stages must be the interests and safety of the child. Where there is a conflict of interest between the child and an adult, the interests of the child must be paramount.
- All staff are aware that children with disabilities, special needs language delay and/or where English is not their first language may communicate concerns with behaviours rather than words. Additionally, staff will question the cause of knocks and bumps in children who have limited mobility.
- The aim of our procedures is to provide a robust framework which enables staff to take appropriate action when they are worried a child is being abused.
- When new staff, volunteers or regular visitors join our setting they are informed of the safeguarding arrangements in place, the names of the DSLs and deputy DSLs and how to share concerns with them.
- The Headteacher will ensure that the policies and procedures (particularly those concerning referrals of cases of suspected abuse and neglect), are understood, and followed by all staff.

5. Early Family Help – Bright Futures

- Any child may benefit from early family help, but all staff should be particularly alert to the potential need for early family help for a child who:
 - is disabled or has certain health conditions and has specific additional needs
 - has special educational needs, with or without a statutory Education, Health and Care plan
 - has a mental health need
 - is a young carer
 - is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups or county lines
 - is frequently missing/goes missing from care or from home
 - has experienced multiple suspensions, is at risk of being permanently excluded from schools and in Alternative Provision or Pupil Referral Unit
 - is at risk of modern slavery, trafficking, sexual or criminal exploitation
 - is at risk of being radicalised or exploited
 - has a family member in prison, or is affected by parental offending
 - is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues and domestic abuse
 - is misusing alcohol and other drugs themselves
 - is at risk of so-called 'honour'-based abuse such as Female Genital Mutilation or Forced Marriage
 - is a privately fostered child, or
 - is persistently absent from education, including persistent absences for part of the school day.
- All staff are aware of the Early Family Help process and understand their role within it. This includes identifying emerging problems, liaising with the DSL, sharing information with other professionals to support early identification and assessment and, in some cases, acting as the lead professional in undertaking an early help assessment. We will refer to and work within the revised 'Working Together to Safeguard Children' 2023 guidance at all times.
- If Early Family Help is assessed to be appropriate, then the DSL will support staff members involved with the family to initiate an Early Family Help Assessment by requesting services from Bright Start 5-19 through

CSCTReferrals@Islington.gov.uk. The DSL will keep all Early Family Help cases under constant review and will consider making a child in need or child protection referral if the situation doesn't appear to be improving for the child.

The Governing Body, Headteacher and Leadership Team will ensure that the DSL team are properly supported in this role in relation to the availability of appropriate time, support and resources.

6. Recognition and Types of Abuse, Neglect and Exploitation

- All staff should be aware of the indicators of abuse, neglect and exploitation, understanding that children can be at risk of harm inside and outside of the school, inside and outside of home, and online. This includes where children see, hear, or experience the effects of domestic abuse. Staff should be aware that abuse can take place wholly online and that technology may be used to facilitate offline abuse. There are four categories of abuse:
 - Physical abuse
 - Sexual abuse
 - Emotional abuse
 - Neglect
- All staff should be aware that child sexual and child criminal exploitation are forms of child abuse.
- The most up to date definitions and possible indicators and signs of abuse are found in Annex B of KCSIE 2025. Staff should also refer to Part 1, along with Annex B and 'What to do if you are worried a child is being abused' (2015).
- All staff are aware that safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside of these environments. All staff, but especially the DSL will consider whether children are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, and serious youth violence.
- The warning signs and symptoms of child abuse, neglect and exploitation can vary from child to child. Children also develop and mature at different rates, so what appears to be worrying behaviour for a younger child might be normal for an older child. Parental behaviours' may also indicate child abuse or neglect, so staff are alert to parent-child interactions or concerning parental behaviours; this could include parents who are under the influence of drugs or alcohol or if there is a sudden change in their mental health.
- By understanding the warning signs, we can respond to problems as early as possible and provide the right support and services for the child and their family. It is important to recognise that a warning sign doesn't automatically mean a child is being abused.

7. Online Safety

1. We recognise that the use of technology presents particular challenges and risks to children and adults both inside and outside of our Setting. The DSL and leadership team have taken particular note of guidance regarding Online Safety within KCSIE 2025.
2. Members of staff with appropriate skills, interest and expertise regarding online safety are encouraged to help support the DSL when developing curriculum approaches or making technical decisions. However, the DSL (supported by the Trust central and IT team) retains overall responsibility for online safety and the school's filtering and monitoring system.
3. We identify that the issues classified within online safety are considerable, but can be broadly categorised into four areas of risk:
 - content: being exposed to illegal, inappropriate or harmful content, for example: pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism, misinformation, disinformation (including fake news) and conspiracy theories are all considered to be safeguarding harms.
 - contact: being subjected to harmful online interaction with other users; for example: child-on-child pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.

- conduct: personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying; and
 - commerce - risks such as online gambling, inappropriate advertising, phishing and or financial scams. If you feel pupils, students or staff are at risk, please report it to the Anti-Phishing Working Group (<https://apwg.org/>), but speak with the DSL before you do so.
4. We recognise the specific risks that can be posed by mobile phones and cameras and in accordance with KCSIE 2025 and EYFS 2024 has appropriate policies in place that are shared and understood by all members of the Setting's community.
 5. Our approach to online safety will always consider the 4 cs above. We have clear rules relating to the use of mobile and smart technology. In doing so we are preventing and deterring the use of mobile phone networks during school time for pupils to sexually harass their peers via their mobile and smart technology, share indecent images: consensually and non-consensually (often via large chat groups), and view and share pornography and other harmful content. This approach is also reflected in our online safety/behaviour/anti-bullying and acceptable use policies.
 6. We recognise that online safety is part of the whole school approach to safeguarding which includes:
 - Parental engagement with online safety
 - An appropriate level of security to protect users and their data
 - An annual review of our online safety procedures which include a risk assessment that reflects and considers the risks children face online
 - Curriculum planning
 - Teacher training
 - The role and responsibilities of the DSL team
 7. Further information regarding the specific approaches relating to this can be found in our Acceptable Use Policy and ICT Policy which can be found on the landing page (staff intranet).
 8. We ensure that appropriate filtering and monitoring systems are in place when pupils and staff access the systems and internet provision. We will be careful to ensure that these systems do not place unreasonable restrictions on internet access or limit what children can be taught with regards to online teaching and safeguarding. We ensure that filtering and monitoring systems are installed on all school owned devices, including those used off site for all user groups. Senior school leaders and DSLs monitor use through Senso software. If a concern is picked up through monitoring, the DSL will take the lead responsibility for any safeguarding and child protection matters and will ensure the right actions are taken at the right time, and appropriate records are made as described in section 5 above. Suitable education and guidance will be provided where a risk or safeguarding concern is identified. The DSL is also able to further restrict, or entirely revoke use of devices, if necessary. London Grid for Learning (LGfL) restricts access to unsuitable material. More details can be found in our ICT and Acceptable use policies.
 9. All staff are expected to follow the [Filtering & Monitoring Standards for Schools and Colleges](#) and to alert the DSL if they come across anything accessible online that would be inappropriate for children. This includes if:
 1. they witness or suspect unsuitable material has been accessed
 2. they can access unsuitable material
 3. they are teaching topics which could create unusual activity on the filtering logs
 4. there is failure in the software or abuse of the system
 5. there are perceived unreasonable restrictions that affect teaching and learning or administrative tasks
 6. they notice abbreviations or misspellings that allow access to restricted material
 10. We will communicate and reinforce to parents and carers how important it is that children are safe online and to inform them which filtering and monitoring systems are used in the setting. We will always let parents know what we are asking children to do online outside of school and the sites they will be asked to access and also which staff member they will be interacting with online (if any).

11. We ensure a comprehensive whole school curriculum response is in place to enable all pupils to learn about and manage online risks effectively and will support parents and the wider community (including all members of staff) to become aware and alert to the need to keep children safe online. We will use the new department for education '[plan technology for your school service](#)' for self-assessment against filtering and monitoring standards and receive personalised recommendations on how to meet them.
12. When using generative AI in schools, we will follow the newly published [Generative AI: product safety expectations](#) to support us to use generative artificial intelligence safely. We will ensure we are up to date with the latest relevant guidance and will use these links to support us further [Generative artificial intelligence \(AI\) in education - GOV.UK](#) and [Using AI in education: support for school and college leaders - GOV.UK](#)

8. Learning at home

Where children are being asked to learn online at home the DfE has provided [Providing Remote Education Advice for Schools and settings](#). It is essential that children are safeguarded from potentially harmful and inappropriate online material. Staff with access to the school's devices are reminded about rules on the misuse of technology – devices used at home should be used just like if they were in full view of a teacher or colleague. Staff will:

- not use private accounts
- log all contacts
- log issues and concerns
- consider the increased vulnerability of pupils with SEND
- avoid private chats with pupils

9. Learning at an Alternative Provision

We emphasise the importance of supporting all children, who often have complex needs, that are learning at an alternative provision. We are committed to our responsibility to ensure that appropriate safeguarding arrangements are in place at an alternative provision and we will always obtain written information from the provision that appropriate safeguarding checks have been carried out on staff that work at their setting.

We will ensure that we always know where a child who attends an alternative provision and have the full address of the provision along with any subcontracted provision or satellite sites the child may attend. We will review the provision being offered to any child at least half termly to assure ourselves that the child is attending regularly and that the placement continues to be safe and meet the child's needs. Where any safeguarding concerns arise, the placement will be immediately reviewed and terminated, if necessary, unless or until those concerns have been addressed satisfactorily. We will follow the statutory department for education guidance, [Arranging Alternative Provision 2025](#) to ensure that we are meeting our duties to safeguard our children and support their education.

10. Key Roles and Responsibilities

All staff including teaching and non-teaching staff, temporary and supply staff, clerical and domestic staff, volunteers and staff working on site employed by other services and agencies and those working with children and families in the community, have a statutory responsibility to safeguard and promote the welfare of children and must be aware of and fully conversant with this policy. All staff must have access to this policy and always follow its procedures and guidance.

10.1 Governance

- Governors on local governing bodies will monitor and review the school-specific elements of this policy after the policy has been reviewed and approved by Trust directors (trustees) and will also hold the Headteacher to account for the implementation of the policy. All members of each local governing body have read and will follow KCSIE 2025.
- At each school, we have a nominated local governor for safeguarding. They are appointed to act as the governor with a specific responsible for safeguarding, to liaise with the Headteacher and school DSL on local safeguarding

issues and report to the lead director for safeguarding. This is a strategic role rather than operational – they will not be involved in concerns about individual pupils.

- Whilst directors holds overall responsibility for the child protection and safeguarding functions of all schools, the day-to-day operational responsibility rests with the Headteacher. All directors and local governors receive training about safeguarding and child protection (including online safety) at induction, which is regularly updated. This is to make sure that they:
 - have the knowledge and information needed to perform their functions and understand their responsibilities, such as providing strategic challenge. Both directors and local governors have access to GovernorHub training and are included in safeguarding training provided for staff in person as well as remotely.
 - can be assured that safeguarding policies and procedures are effective and support the school to deliver a robust whole-school approach to safeguarding
- The Head of People Services and senior leadership team are responsible for ensuring that robust recruitment procedures are followed that help to deter, reject or identify people who might abuse children. They adhere to statutory responsibilities to check adults working with children and make sure that robust recruitment and selection procedures in place, including ensuring that volunteers are appropriately supervised while at work.
- The CEO, Head of School Improvement, and/or Head of People Services are responsible for liaising with Islington Council's Local Authority Designated Officer (LADO) LADO@islington.gov.uk in the event of allegations of abuse being made against the Headteacher.

10.2 The Headteacher

The Headteacher is responsible for ensuring that:

- this child protection policy and other relevant policies and procedures, adopted by the board of directors, are fully implemented and followed by all staff including volunteers
- sufficient resources and time are available to enable the DSL team to carry out their duties and case holding staff are able to take part in strategy discussions/meetings, initial and review child protection conferences, core group and Team around the Child Meetings and other inter-agency meetings which contribute to the assessment of children including writing reports for conferences
- all concerns about poor or unsafe practice regarding children, will be addressed sensitively and in a timely manner in accordance with the Whistleblowing Policy.
- there are robust systems in place to cover for the DSL's planned and unplanned absences from the school, including having Deputy DSLs who have the role added to their job descriptions.
- Ensuring the Trust's safeguarding tracker is updated in a timely manner so that key safeguarding information is gathered and trends identified and responded to.
- Ensuring that the Trust's standard safeguarding procedure is consistently followed.
- In partnership with the DSL, making sure that all concerns about pupils' welfare, discussions and decisions made, and the reasons for those decisions, are recorded in writing. CPOMS records should include:
 - a clear and comprehensive summary of the concern
 - details of how the concern was followed up and resolved, and
 - a note of any action taken, decisions reached and the outcome.

10.3 Designated Safeguarding Lead and Deputies (DSL)

- Each school has appointed a member of the senior leadership team as the DSL. The senior DSL has the overall responsibility for the day-to-day oversight of safeguarding and child protection systems in setting. Schools have also identified additional staff to deputise for them when the DSL is not available.
- Deputy DSLs should have the same level of training as DSLs. ISCP training provides essential local information, including regarding local risks, procedures and contacts. Therefore, all DSLs and deputy DSLs should secure ISCP training as soon as possible after stepping into role.

- The DSL will undergo appropriate and specific training to provide them with the knowledge and skills required to carry out their role. This training will be approved by and meet the standards as required by Islington Safeguarding Children Partnership in line with guidance set out in Competence Still Matters, 2014. The DSL's training will be updated formally every two years but their knowledge and skills will be updated through a variety of methods (e.g. e-Bulletins, the Safeguarding in Education Newsletter/Blog, conferences, local meetings i.e. DSL Forum, ISCP CP Refresher training etc.) at regular intervals, at least annually, to keep up with any developments relevant to their role.
- During term time the DSL will always be available (during normal School or college hours) for staff in the school to discuss any safeguarding concerns.
- During term time the designated safeguarding lead and or a deputy will always be available (during school or college hours) for staff in the school to discuss any safeguarding concerns. If in exceptional circumstances, a DSL is not available on the school site in person, we will ensure that they are available via telephone and/or any other relevant media.
- The DSL is the central contact point for all staff to discuss any safeguarding concerns and has lead responsibility for managing child protection referrals, safeguarding training and raising awareness of all child protection policies and procedures. They will ensure that everyone (including temporary staff, volunteers and contractors) is aware of this policy and our procedures and related policies and that they are followed at all times.
- The DSL maintains a confidential recording system for all safeguarding and child protection concerns and works closely with the Designated Teacher for Looked After Children and the Head of the Virtual School for all children who are looked after or have previously been looked after.
- The DSL team will familiarise themselves with the extended role of the Virtual School Head including promoting the educational achievement of children in kinship care.
- The DSL ensures that the Setting provides reports/updates and is appropriately represented at inter-agency safeguarding meetings (including Child Protection conferences and Team around the Child Meetings)

10.4 Additional responsibilities for the DSL

- Responsibility for online safety as well as safeguarding and child protection
- Responsibility for filtering and monitoring
- Working with mental health leads where safeguarding is linked to mental health
- Promoting supportive engagement with parents and carers
- Promoting educational outcomes of children in need by knowing and helping to address issues they have/are experiencing by:
 - Ensuring the school knows which children need a social worker, understand their academic progress and attainment and maintaining a culture of high aspirations
 - Supporting teaching staff to provide additional academic support or reasonable adjustments to help children who have/had a social worker reach their potential
 - Recognising the lasting impact on educational outcomes
 - Working with the Virtual School head to discuss how funding can best support looked after children
 - Working with the Virtual School Head to promote the educational achievement of previously looked after children and children in kinship care
- To work with the headteacher and 'relevant strategic leads' on information sharing:
 - Understanding the importance of sharing information with other Settings/colleges on transfers including in-year transfers and between primary and secondary education
 - Ensuring information in child protection files is kept confidential and stored securely
 - Ensuring that the child protection file is transferred to a new Setting/college within 5 days for an in-year transfer or within first 5 days of start of a new term.
- Training, knowledge and skills should ensure that staff have a good understanding of:
 - How to identify, understand and respond to specific needs that can increase the vulnerability of children
 - Specific harms that could put children at risk

- The important role they play in providing information and support to CSC to safeguard and promote their welfare
- The lasting impact of adversity and trauma on education, behaviour, mental health and wellbeing, and what is needed to respond to this.
- The difficulties that children may have in approaching staff about their circumstances and consider how to build trusted relationships that facilitate communication
- Children in need (children with disabilities, those with relevant health needs and young carers) who have specific need to be alert to.

10.5 Staff and volunteers

- Due to their day-to-day contact with children, staff are well placed to observe possible signs of abuse in children. All staff maintain an attitude of 'it could happen here' where safeguarding is concerned and always act in the best interests of the child. *It is not the role nor responsibility of those working with children to assess, diagnose or investigate whether a child is at risk of or suffering harm or abuse.* It is the responsibility of all staff to be aware of the need to report any concerns about a child to the DSL team immediately.
- All staff have a responsibility to provide a safe learning environment in which our children can learn. They will ensure all children are able to develop appropriate strategies to recognise and respond to risk and build resilience, including through curriculum development and planning
- Any child may benefit from Early Family Help and all staff members are aware of the local Early Family Help process and our role in it. They are aware of signs of abuse and neglect so they are able to identify children who may be in need of help or protection.
- All staff and volunteers take individual responsibility for knowing what to do if a child discloses, or they have concerns about abuse or neglect. Members of staff know how to maintain an appropriate level of confidentiality whilst at the same time liaising with relevant professionals such as the DSL and other agencies as appropriate. Members of staff know they must never promise a child that they will not tell anyone about a concern or allegation as this may ultimately not be in the best interests of the child.

10.6 Parents and Carers

- Parents/carers have a responsibility to:
 - Discuss safeguarding issues with their children, support the school in their safeguarding approaches, and reinforce appropriate safe behaviours at home
 - Identify changes in behaviour which could indicate that their child is at risk of harm online, or in the wider community.
 - Seek help and support from the school, or other appropriate agencies, if they or their child have any safeguarding concerns
 - Contribute to the development of the school's safeguarding policies
- [Our website](#) informs parents and carers about our duties and responsibilities under child protection and safeguarding procedures.
- Parents can obtain a copy of the Safeguarding and Child Protection Policy and other related policies on request and can view them via the website: [Policies - The Bridge Trust](#)

11. Mental Health

We have an important role to play in supporting the mental health and wellbeing of children. Staff have an awareness that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Staff are not expected to make a diagnosis of a mental health problem. Staff however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one, and work with external agencies. We will follow the government

guidance [promoting and supporting mental health and wellbeing in schools and colleges](#) to help us promote positive mental health and wellbeing for all our children.

Where children have suffered:

- abuse and neglect, or
- other potentially traumatic adverse childhood experiences

This can have a lasting impact throughout childhood, adolescence and into adulthood. Staff are aware of how these children's experiences, can impact on their mental health, behaviour and education. If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, by following the child protection policy and speaking to the DSL.

12. Children in Specific Circumstances

12.1 Children who need a social worker (Child in Need and Child Protection Plans)

- Children may need a social worker due to safeguarding or welfare needs. Children may need this help due to abuse, neglect, exploitation and complex family circumstances. A child's experiences of adversity and trauma can leave them vulnerable to further harm, as well as educationally disadvantaged in facing barriers to attendance, learning, behaviour and mental health.
- Once information about a child with a social worker is communicated to the school, the DSL will, as a matter of routine, hold and use this information so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes.
- Where children need a social worker, this will inform decisions about safeguarding (for example, responding to unauthorised absence or missing education where there are known safeguarding risks) and about promoting welfare (for example, considering the provision of pastoral and/or academic support, alongside action by statutory services).
- Findings from the Children in Need review, 'Improving the educational outcomes of Children in Need of help and protection' <https://www.gov.uk/government/publications/review-of-children-in-need/review-of-children-in-need> contains further information; the conclusion of the review, 'Help, protection, education' [Help, Protection, Education: Concluding the Children in Need Review](#) sets out action the Government is taking to support this.

12.2 Child-on-Child Abuse

- We may be the only stable, secure and safe element in the lives of children at risk of, or who have suffered harm. Nevertheless, whilst here, their behaviour may be challenging and defiant, or they may instead be withdrawn, or display abusive behaviours towards other children. We recognise that some children may abuse other children, and any incidents of child-on-child abuse will be managed in the same way as any other child protection concern and will follow the local procedures. There is an ISCP Protocol for Managing Child-on-Child Sexual Abuse, Violence and Harassment which must be followed. We will seek advice and support from other agencies as appropriate.
- Child-on-child abuse can manifest itself in many ways. This may include bullying (including cyber bullying), physical abuse, sexual violence / sexual harassment, 'upskirting', the sharing of nudes or semi-nudes, 'sexting' or initiation / hazing type violence and rituals. We do not tolerate any harmful behaviour and will take swift action to intervene where this occurs. We use lessons and assemblies to help children understand, in an age-appropriate way, what abuse is, and we encourage them to tell a trusted adult if someone is behaving in a way that makes them feel uncomfortable. We understand the different gender issues that can be prevalent when dealing with child-on-child abuse.
- We recognise that LGBTQ+ children can be targeted by others as can children perceived to be LGBTQ+ who can be just as vulnerable. We will ensure that these children have a trusted adult to share concerns with, and we will work to consider how we can reduce additional barriers faced by these children and how safe spaces can be

provided for them to talk or share concerns. We will use the [Statutory Guidance on Relationships, Sex and Health Education](#) for support on addressing homophobic, biphobic and transphobic bullying and abuse.

12.3 Online Safety

Our staff are aware that technology is a significant component in many safeguarding and wellbeing issues:

- Children are at risk of online abuse as well as face to face
- Child-on-child abuse can happen online through:
 - Abusive, harassing and misogynistic messages
 - Non-consensual sharing of indecent nude and semi-nude images/videos especially in chat groups
 - Sharing of abusive images and pornography, to those who do not want to receive it

Staff should:

- Recognise and respond to the indicators
- Recognise it may be taking place, even if not reported
- Understand their role in preventing and responding where a child is at risk
- Understand the importance of challenging inappropriate behaviours to ensure a safe environment and not to normalise abuse
- Recognise it can take place inside and outside of schools both online and offline.

12.4 Serious violence

All staff are aware of indicators which may signal that children are at risk from or involved with serious violent crime. These may include:

- increased absence from school
- a change in friendships and/or
- relationships with older individuals or groups
- a significant decline in performance
- signs of self-harm and/or
- a significant change in well-being
- signs of assault
- unexplained injuries
- unexplained gifts or news may indicate involvement with individuals associated with criminal networks or gangs.

12.5 Safeguarding Children with Special Educational Needs and Disabilities (SEND)

- We acknowledge that children with special educational needs and disabilities and/or certain health conditions can face additional safeguarding challenges both offline and online, as they may have an impaired capacity to resist or avoid abuse.
- We will use language in relation to medical diagnoses in line with the [SEND code of practice 2014](#). However, we will always respect the wishes and feelings of some children that wish to be known for example, as an 'autistic person' and not a person with a 'disorder' or on the 'spectrum'. This reflects a move towards a more 'person-first' language approach, that emphasises and respects an integral part of a child's identity.
- Our staff are aware of the additional barriers which exist recognising abuse and neglect in this group of children, these include:
 - these children being more prone to peer group isolation or bullying (including prejudice-based bullying) than other children;

- the potential for children with SEND or certain medical conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs;
- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability rather than abuse or neglect, without further exploration;
- Speech, language and communication needs which may make it difficult to tell others what is happening and managing or reporting these challenges.

To address these additional challenges, staff will consider extra pastoral support and attention for these children, along with ensuring any appropriate support for communication is in place.

12.6 Children Absent and Missing from Education

- We recognise that all children, regardless of their circumstances, are entitled to a full-time education which is suitable to their age, ability, aptitude and any special educational needs they may have. We are aware that a child who has unexplainable and/or persistent absences or who are missing from education can be potential indicators of abuse, neglect or exploitation.
- We have a procedure in place for responding to unauthorised absence and responding to children who have unexplainable and/or persistent absences from education, particularly on repeat occasions, and for prolonged periods, to help identify the risk of abuse and neglect, including sexual/criminal exploitation, and to help prevent the risks of their going missing in future. This may include liaising with Children's Social Care and/or the police. For further information, please access our attendance policy on our website [Policies - The Bridge Trust](#). We will also follow the statutory guidance [Working-together-to-improve-school-attendance 2024, which outlines expectations for schools to work in partnership with local authorities and other partners to promote and support school attendance and places a strong emphasis on early intervention](#).
- Our staff are aware that children being absent from our schools, particularly unexplained absences and repeat absences for prolonged periods, along with children missing education, can act as a warning sign of a range of safeguarding possibilities including neglect, child sexual and child criminal exploitation, particularly county lines. Our response to persistent/unexplained absent pupils and children missing education supports identifying such abuse and in the case of absent pupils, helps prevent the risk of them become a child missing education in the future. This includes when problems are first emerging but also where children are already known to Children's Social Care and need a social worker, where being absent from education may increase known safeguarding risks within the family or in the community. We will refer to the government Home Office strategy, [Missing Children and Adults](#) in the event that a child and their family do not arrive to school and cannot be contacted.
- We note the connection between **Child Criminal Exploitation (CCE)** and **Child Sexual Exploitation (CSE)** and school absence. Children may be subjected to multiple forms of abuse, including both criminal and sexual exploitation. Indeed, this includes Exchange-Based Exploitation - Abuse may occur in exchange for things the child needs or wants (e.g., money, gifts, affection), or for the perpetrator's gain (e.g., financial, status).
 - **Perpetrators**
Can be adults or peers, acting alone or in groups.
Children who harm others may also be victims of exploitation and should be treated as such.
 - **Vulnerability Factors**
Beyond age, other factors increasing vulnerability include:
Sexual identity
Cognitive or learning difficulties
Communication ability
Physical strength
Social status
Access to resources
 - **Common Indicators of CCE and CSE and County Lines**

Unexplained gifts, money, or possessions
Associations with others involved in exploitation
Emotional changes
Substance misuse
Going missing or returning home late
Poor school attendance or disengagement from education
Owing a debt bond to their exploiters

- **Support Needs**

Exploited children require additional support to remain engaged in education.

- **Specific to Child Sexual Exploitation (CSE)**

Can be one-off or ongoing, ranging from opportunistic to organised abuse.

May involve force, enticement, violence, or threats.

Additional indicators include:

Relationships with significantly older partners

Sexually transmitted diseases, advanced sexual behaviour, or pregnancy

Victims can be exploited even when activity appears consensual and it should be noted exploitation as well as being physical can be facilitated and/or take place online. More information includes definitions and indicators are included in Annex B of KCSIE 2025.

We will use the Children's Society website to guide and support our staff in helping the [prevention of child sexual exploitation](#) as set out in Keeping Children Safe in Education 2025, additional advice and support.

Domestic Abuse

The Domestic Abuse Act 2021 creates a statutory definition of domestic abuse based on the [existing cross-government definition](#).

'Abusive behaviour' is defined in the act as any of the following:

- physical or sexual abuse
- violent or threatening behaviour
- controlling or coercive behaviour
- economic abuse
- psychological, emotional or other abuse

For the definition to apply, both parties must be aged 16 or over and 'personally connected'. 'Personally connected' is defined in the act as parties who:

- are married to each other
- are civil partners of each other
- have agreed to marry one another (whether or not the agreement has been terminated)
- have entered into a civil partnership agreement (whether or not the agreement has been terminated)
- are or have been in an intimate personal relationship with each other
- have, or there has been a time when they each have had, a parental relationship in relation to the same child
- are relatives

[Read the government's statutory definition of domestic abuse factsheet](#)

"Economic abuse" means any behaviour that has a substantial adverse effect on one party's ability to—

- acquire, use or maintain money or other property, or
- obtain goods or services.

Operation Encompass provides advice and a helpline service for all staff members who may be concerned about children who have experienced or witnessed domestic abuse. The number is available weekdays from 8 am to 1 pm 0204 5139990.

Refuge runs the National Domestic Abuse Helpline, which can be called free of charge and in confidence, 24 hours a day on 0808 2000 247.

12.7 Prevent and Radicalisation

- Prevent concerns should be shared with prevent@islington.gov.uk where concerns can be discussed and requests made for a Prevent Referral form.
- Extremism is the promotion or advancement of an ideology based on violence, hatred or intolerance <https://www.gov.uk/government/publications/new-definition-of-extremism-2024/new-definition-of-extremism-2024>, that aims to:
 - (1) negate or destroy the fundamental rights and freedoms of others; or
 - (2) undermine, overturn or replace the UK's system of liberal parliamentary democracy and democratic rights; or
 - (3) intentionally create a permissive environment for others to achieve the results in (1) or (2).
- The types of behaviour below are indicative of the kind of promotion or advancement which may be relevant to the definition and are an important guide to its application. The further context below is also an essential part of the definition.
- Radicalisation refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.
- Terrorism is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.
- We recognise that exposure of children (and adults) to extremist ideology can hinder their social development and educational attainment alongside posing a very real risk that they could support or partake in an act of violence. Radicalisation of children can be compared to grooming for sexual exploitation.
- All staff recognise that children exposed to radicalisation and extremism should be protected and safeguarded in the same way as protecting children from other risks and will report concerns regarding radicalisation and extremism to the DSL who will follow local and national guidance.
- All staff will complete one of the following approved training packages, every two years, which includes guidance on how to identify people anyone who may be being drawn into terrorism, and how to refer them into the Channel process, from the following link: [Prevent duty training: Learn how to support people susceptible to radicalisation](#)

13. The Curriculum and Staying Safe

- We recognise our essential role in helping children through PSHE and RSHE to understand and identify the parameters of what is appropriate child and adult behaviour; what is 'safe'; to recognise when they and others close to them are not safe; and how to seek advice and support when they are concerned.
- We will ensure that children are taught about safeguarding, including online safety as we consider that this is part of providing a broad and balanced curriculum. This may include covering relevant issues in the newly published statutory guidance, [Relationships Education \(for all primary pupils\)](#), [Relationships and Sex Education \(for all secondary pupils\)](#) and [Health Education July 2025 \(for all pupils in state-funded Settings\)](#) which has been compulsory since September 2020.
- We will use the curriculum to provide opportunities for increasing self-awareness, self-esteem, social and emotional understanding, assertiveness and decision making so that students have a range of contacts and strategies to ensure their own protection and understand the importance of protecting others.

- Staff are aware that children may not always know that they are being abused or be ready to disclose that they are being abused
- Trusted relationships with staff allow children to communicate what is happening in their lives – we acknowledge they are not always aware how they can disclose abuse
- Many children express the trauma they have experienced or are experiencing through their behaviour
- We are aware that challenging behaviour may well be a sign that they are trying to communicate something and we need to listen to what they are saying even when that might be very difficult
- We use [Behaviour in Schools - Advice for Headteachers and School Staff 2024](#) to ensure that we always consider whether misbehaviour is an indicator of harm or trauma and use the guidance to put in place measures to prevent bullying, cyberbullying, prejudice-based and discriminatory bullying.
- If pupils' conduct falls below the standard which could be reasonably expected of them, they could be sanctioned. Any decision to suspend or exclude must be lawful, reasonable and fair.
- Our staff are expected to treat everyone with kindness, dignity and respect
- Our staff recognise that it is important to have a good relationship with children, to enable them to share what is happening in their lives so that we can understand what they are experiencing in their daily lives
- We make our children aware that they will be listened to and their concerns taken seriously and acted upon.
- To support this, our schools include the following:
 - The Student Council
 - Listening posts/benches
 - Worry boxes
 - Buddy and peer-mentoring systems
 - PSHE events
 - Regular feedback questionnaires with groups of children
 - Think U Know, Childnet, Digital Literacy Scheme of work etc.

14. Record Keeping

- Staff will record any welfare concern that they have about a child on CPOMS with a completed body map if injuries have been observed and will pass them without delay to the DSL. Records will be completed as soon as possible after the disclosure/incident/event, using the child's words where appropriate, and will be signed and dated by the member of staff concerned.
- All safeguarding concerns, discussions and decisions made including the rationale for those decisions, will be recorded in writing via CPOMS. If members of staff are in any doubt about recording requirements, they should discuss their concerns with a DSL.
- Paper recording forms should only be used by new staff awaiting a CPOMS login; supply staff, volunteers, visitors or contractors without access to CPOMS; or in the event that CPOMS is not accessible.
- Regardless of whether records are made electronically or on paper, they should be a clear and comprehensive summary of the concern. Therefore, records should contain these features:
 - include as many details as possible
 - clearly identify the pupil and the nature of the concern and any other pupils or adults involved
 - clearly identify the actions already taken
 - be clearly written and logically structured
 - have a clear and concise chronology of events relating to the concern
 - be free from jargon and abbreviations
 - separate fact from opinion
 - Record information verbatim, not making assumptions about people, body parts etc. For example, *X said, "Daddy did it"* rather than, *X said it was his father.*
 - details of how the concern was followed up and resolved. It is likely that the DSL or deputy DSL will add this information
 - a note of any action taken, decisions reached and the outcome. It is likely that the DSL or deputy DSL will add this information

- Safeguarding and child protection records are kept for individual children and are maintained separately from all other records relating to the child. Safeguarding records are kept in accordance with data protection legislation and are retained centrally and securely by the DSL.
- All safeguarding records will be transferred in accordance with data protection legislation to the child's subsequent Setting, under confidential and separate cover in line with KCSIE, 2025. These must be given to the new DSL and a receipt of delivery will be obtained. The DSL should also transfer any information relating to the Channel Programme.

15. Confidentiality and Information Sharing

- We recognise that all matters relating to safeguarding and child protection are confidential. The Headteacher or DSL will hold the information, and information will only be shared in the interests of keeping the child safe.
- All members of staff are aware that whilst they have duties to keep any information about children, families and colleagues which they have access to as a result of their role confidential, they also have a professional responsibility to share information with other agencies in order to safeguard children. The Data Protection Act 2018 and GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children.
- All staff must be aware that they cannot promise a child to keep secrets which might compromise the child's safety or wellbeing. Further advice on responding to disclosures can be found in Appendix 3.

We have due regard to the relevant data protection principles, which allow us to share (and withhold) personal information, as provided for in the Data Protection Act 2018 and the GDPR. This includes:

- being confident of the processing conditions which allow us to store and share information for safeguarding purposes, including information, which is sensitive and personal, and should be treated as 'special category personal data'.
- understanding that 'safeguarding of children and individuals at risk' allows the sharing of special category personal data without consent where there is good reason to do so.
- not providing pupils' personal data where the serious harm test under the legislation is met. For example, in a situation where a child is in a refuge or another form of emergency accommodation, and the serious harms test is met, we will withhold providing the data in compliance with our obligations under the Data Protection Act 2018 and the GDPR.
- If we are made aware of any safeguarding concerns which need to be shared with the wider community (including other local Settings) then advice will be sought from the POSIE/Children's Social Care to ensure that the integrity of any subsequent investigations are maintained and that all members of the community are safeguarded.
- DfE Guidance on Information Sharing April 2024 is followed with specific emphasis on the Seven Golden Rules of Information Sharing.
- Data Protection Toolkit for Schools: <https://www.gov.uk/government/publications/data-protection-toolkit-for-schools>

16. Inter-agency Working

- We have an important role to play in multi-agency safeguarding arrangements and contribute to multi-agency working in line with WTSC December 2023. We are named as a relevant agency by the three safeguarding partners that make up the Islington Safeguarding Children Partnership and so have a statutory duty to cooperate with published arrangements.
- We are not the investigating agency when there are child protection concerns and we will therefore pass all relevant information to the statutory agencies. We will however contribute to the investigation and assessment processes as required and recognise that a crucial part of this may be in supporting the child while investigations take place.

- We recognise the importance of inter-agency working and will ensure that staff are enabled to attend relevant safeguarding meetings, including Child Protection Conferences, Core Groups, Strategy Meetings, Child in Need meetings and Early Help meetings.
- The Leadership Team including the DSL will work to establish strong and co-operative relationships with relevant professionals in other agencies.

17. Complaints

- We have a Complaints Procedure which is available to parents, pupils/students and members of staff who wish to report concerns. This can be found on our website: [Policies - The Bridge Trust](#)
- All reported concerns will be taken seriously and considered within the relevant and appropriate process. Anything that constitutes an allegation against a member of staff or volunteer will be dealt with under the specific Procedures for [Managing Allegations/Low Level Concerns against Staff policy](#).
- At our setting, we are committed to maintaining a safe and supportive environment for all pupils. We understand that concerns may arise, and we encourage parents to utilise our school complaints policy as the first step in addressing any issues. By doing so, we can work collaboratively to resolve matters promptly and effectively, ensuring the best outcomes for our students. Our complaints policy is designed to be transparent and accessible, providing a clear process for raising and addressing concerns. We believe that most issues can be resolved at the school level, and we are dedicated to listening to and addressing the concerns of our school community.

18. Staff Induction, Awareness and Training

- All members of staff have been provided with a copy of Part one of KCSIE, 2025 which provides an overview of safeguarding duties and responsibilities. All members of staff who work directly with children should at least read Part 1 and Annex B and must sign to confirm that they have read it and understood it.
- All staff working directly with children:
 - Are expected to read at least Part 1 and Annex B of KCSIE
 - Should reassure victims of abuse that they are being taken seriously, they will be supported and kept safe
 - Should not give children the impression they are creating a problem or made to feel ashamed for making a report
 - Should know the indicators of abuse and neglect for specific safeguarding issues e.g. child criminal exploitation and child sexual exploitation
 - Should be aware that multiple safeguarding issues often overlap with one another
 - Should be aware of the risk factors that increase the likelihood of involvement in serious violence

The DSL will ensure that all new staff and volunteers (including temporary staff) are appropriately inducted into our school's internal safeguarding procedures and communication lines. As a minimum, this will include: This policy, the Staff Handbook, Code of Conduct, Whistleblowing Policy and Behaviour Policy. In addition, all staff are provided with Part One of [Keeping children safe in education](#). The role of the DSL (including the identity of the DSL and any deputies) is also clearly explained.

- All staff members (including temporary staff) will receive appropriate safeguarding and child protection training (organised by the DSL) which will enable them to:
 - Recognise potential safeguarding and child protection concerns involving pupils and adults (colleagues, other professionals and parents/carers)
 - Respond appropriately to safeguarding issues and take action in line with this policy
 - Record concerns in line with policies
 - Refer concerns to the DSL and be able to seek support externally if required
- All staff members (including temporary staff) will receive appropriate training to ensure they are aware of a range of safeguarding issues including online safety (see definition of safeguarding) and are aware that behaviours linked to drug taking, alcohol abuse, persistent absence from school and child-on-child abuse such as bullying and sexting

can put children in danger. The staff training will also include whole school responsibilities, safeguarding and child protection procedures, online safety, safe working practice and external reporting mechanisms.

- All staff members (including temporary staff) will receive regular safeguarding and child protection updates, as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively.
- All staff members (including temporary staff) will also be made aware of the Trust's expectations regarding safe and professional practice via the staff code of conduct.
- We recognise the expertise which members of staff build by undertaking safeguarding training and managing safeguarding concerns daily. All staff are therefore able to contribute to and shape safeguarding arrangements and the safeguarding policy.
- The Head of Training and Development maintains an up-to-date central register of who has completed safeguarding and child protection training through National College.

19. Safer Recruitment

19.1 The safe recruitment of staff is the first step to safeguard and promote the welfare of children and young people in education. The Trust is committed to safeguarding and promoting the welfare of the pupils and students in its care and expects all staff and volunteers to share this commitment.

19.2 The Trust's Safer Recruitment Policy sets out the roles, responsibilities and processes for key members of staff responsible for the recruitment of all categories of individuals working on the Trust's premises (including employees, volunteers, agency staff, contractors, regular visitors and members of the Trust Board and Local Governing Bodies).

19.3 The Safer Recruitment Policy aims to achieve the intention at point 10.1 by outlining the Trust's processes to:

- Attract the best possible applicants to vacancies on the basis of their merit, abilities and suitability;
- Deter prospective applicants who are unsuitable for work with children or young people;
- Identify and reject applicants who are unsuitable for work with children and young people.

19.4 The Safer Recruitment Policy is available on the Trust's Landing Page.

20. Safer Working Practice

20.1 All adults who come into contact with our children have a duty of care to safeguard and promote their welfare. There is a legal duty placed upon us to ensure that all adults who work with or on behalf of our children are competent, confident and safe to do so.

20.2 All staff will be provided with a copy of our Trust's Code of Conduct and Staff Handbook at induction and during the annual affirmation exercise. A copy of the latest Code of Conduct and Staff Handbook are available on the Trust's Landing Page and National College. These two documents provide clear guidelines on the expectations around safe working practices and acceptable conduct. Whilst they don't attempt to cover all eventualities, they do give a framework to help staff think about what they should or shouldn't do and to help them apply sound judgement and knowledge to carry out their duties in accordance with the advice.

20.3 There will be occasion when some form of physical contact is inevitable, for example if a child has an accident or is hurt or is in a situation of danger to themselves or others around them. However, at all times the agreed policy for safe restraint must be adhered to. Further information is available in the Trust's Behaviour Policy. A list of staff that have accessed Norfolk Steps training will be kept by the DSL and Headteacher on the training log.

20.4 If staff or visitors, are working with children alone they will, wherever possible, be visible to other members of staff. They will be expected to inform another member of staff of their whereabouts in school, who they are with and for how long. Doors have a clear glass panel in them.

20.5 The details above are sensible steps that every adult should take in their daily professional conduct with children. This advice can be found in the latest published versions of [‘Guidance for Safer Working Practices for Adults who work with Children and Young People in Education Settings’](#). All staff and volunteers are expected to carry out their work in accordance with this guidance and will be made aware that failure to do so could lead to disciplinary action.

20.6 As outlined in the Trust’s Code of Conduct, when working with our children and young people, adults must:

- consider if activities they are undertaking are in the children and young peoples’ best interests; (format bullets)
- be sensitive to the needs and feelings of the children and young people;
- must be respectful and polite;
- must be aware of confidentiality;
- must communicate effectively;
- always use the proper routes for communication;
- co-operate and collaborate, working together to meet the school’s shared goals in the best interests of the children.

21. Managing allegations against staff and volunteers

- Our aim is to provide a safe and supportive environment which secures the wellbeing and very best outcomes for the children at our school. We do recognise that sometimes the behaviour of adults may lead to an allegation of abuse being made.
- The Trust’s Managing Allegations Against Staff Policy outlines the key responsibilities for groups of staff responsible for managing allegations, how staff should report any allegations concerning an adult working onsite and the actions that the Trust will take. The Policy [insert link] is available to view on the Trust’s Landing Page. The key principles and reporting mechanisms are outlined below but further guidance is provided in the policy.

21.1 Allegations that may meet the harm threshold

Allegations sometimes arise from a differing understanding of the same event, but when they occur, they are distressing and difficult for all concerned. We also recognise that many allegations are genuine and there are some adults who deliberately seek to harm or abuse children. We work to the thresholds for harm as set out in the latest published versions of Working Together to Safeguard Children and Keeping Children Safe in Education, DfE below.

A referral to the Local Authority Designated Officer (LADO) should be made immediately and within 24 hours if a member of staff, volunteer or supply staff has:

- behaved in a way that has harmed a child, or may have harmed a child;
- possibly committed a criminal offence against or related to a child;
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children
- behaved or may have behaved in a way that indicates they may not be suitable to work with children (e.g. where they are involved in an incident outside of the school which did not involve children but could have an impact on their suitability to work with children, one example being domestic abuse.); or
- behaved in a manner that discriminates against a child on the basis of one or more of their protected characteristics, as defined by the [Equalities Act 2010](#). For instance, treating a child unfairly because of their ethnicity, sex or sexual orientation.

In the event that there are concerns regarding any one or more of the above criteria the following will take place:

- Basic enquiries to establish facts before contacting LADO
- The Headteacher to lead the investigation only after being given the go ahead to do so by the LADO

The Trust will deal with any allegations quickly and in a fair and consistent way that provides effective child protection while also supporting the individual who is the subject of the allegation. The Managing Allegations Against Staff Policy provides more information on the steps that will be followed, including seeking advice from the relevant authority.

Staff at the Trust recognise their responsibility to report / refer allegations or behaviours of concern and / or harm to children by adults in positions of trust who are not employed by the Trust to the LADO service directly at lado@islington.gov.uk These are adults such as those in the voluntary sector, taxi drivers, escorts, and fosters carers.

We will take all possible steps to safeguard our children and to ensure that the adults in our school are safe to work with children. When concerns arise, we will always ensure that the procedures outlined in the latest version of Keeping Children Safe in Education, DfE are adhered to and will seek appropriate advice. The first point of contact for schools regarding concerns and/ or allegation issues (including for supply teachers) is The LADO (Telephone: 0207 527 8101/02). If the advice is to make a referral to the LADO service then the [LADO Referral Form](#) should be completed.

If an allegation is made or information is received about *any* adult who works/ volunteer in our setting which indicates that they may be unsuitable to work / volunteer with children, the member of staff receiving the information should inform the Headteacher immediately. This includes concerns relating to agency and supply staff and volunteers. In the event that the Headteacher is not contactable on that day, the information must be passed to and dealt with by either the member of staff acting as Headteacher or the DSL. If your concern relates to the Headteacher, please contact the Chief Executive Officer: Dr Penny Barratt OBE.

21.2 Concerns that do not meet the harm threshold

- Concerns which do not meet the harm threshold may be termed as a 'low-level concern.' This is any concern – no matter how small – that an adult working in or on behalf of the school/Trust may have acted in a way that:
 - Is inconsistent with the staff code of conduct, including inappropriate conduct outside of work; and
 - Does not meet the allegations threshold or is otherwise not considered serious enough to consider a referral to the designated officer at the local authority.
- Examples of such behaviour could include, but are not limited to:
 - Being overly friendly with children;
 - Having favourites;
 - Taking photographs of children on their mobile phone;
 - Engaging with a child on a one-to-one basis in a secluded area or behind a closed door where you cannot be seen by colleagues;
 - Humiliating pupils.
- Staff report all low level concerns to the Headteacher or in their absence to the DSL. If reported to the DSL then the DSL will inform the Headteacher of the concern in a timely fashion. The Headteacher will always be the ultimate decision maker in respect of all low-level concerns.
- Through training and induction, the Trust ensures that all staff understand the importance of self-referring, where, for example, they have found themselves in a situation which could be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in such a way that they consider falls below the expected professional standards.

- The steps which should be taken to review and take action against a low level concern, including seeking advice from the relevant authority are outlined in the Managing Allegations Against Staff Policy.

21.3 What to do if you have a low-level concern

- Low-level concerns about a member of staff should be reported to the headteacher
- We encourage staff to feel confident to self-refer, where, for example, they have found themselves in a situation which could be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in such a way that they consider falls below the expected professional standards.
- Where a low-level concern relates to a person employed by a supply agency or a contractor, that concern should be shared with the DSL and/or headteacher, and recorded in accordance with our low-level concern/staff code of conduct policy, and their employer notified about the concern, so that any potential patterns of inappropriate behaviour can be identified.
- We have a legal duty to refer to the Disclosure and Barring Service (DBS) anyone who has harmed, or poses a risk of harm, to a child, or if there is reason to believe the member of staff has committed one of a number of listed offences, and who has been removed from working (paid or unpaid) in regulated activity, or would have been removed had they not left. The DBS will consider whether to bar the person. If these circumstances arise in relation to a member of staff, a referral will be made as soon as possible after the resignation or removal of the individual in accordance with advice from the LADO and/or Human Resources Service.
- We expect all our staff to exercise ongoing vigilance and to maintain an environment that deters and prevents abuse and challenges inappropriate behaviour
- For specific guidance on how to respond to allegations against staff, please refer to the allegations against staff policy and the Whistle Blowing Policy which can be found on the landing page. When in doubt – please ask.

22. Use of premises for non-school/college activities

- 22.1 Where we hire or rent out our facilities/premises to organisations or individuals (for example to community groups, sports associations, and service providers to run community or extra-curricular activities) we ensure that appropriate arrangements as per the DfE guidance After-school clubs, community activities and tuition: safeguarding guidance for providers are in place to keep children safe.
- 22.2 We will seek assurances that the body concerned has appropriate safeguarding and child protection policies and procedures in place (including inspecting these as needed). Safeguarding requirements are included in any transfer of control agreement (i.e. lease or hire agreement), as a condition of use and occupation of the premises; and that failure to comply with this would lead to termination of the agreement.
- 23.3 If an allegation is made relating to an incident that happened when an individual or organisation was using school premises for non-school/college activities, we will follow the safeguarding policies and procedures, included in section 12 above.

23. Site Security

- All members of staff have a responsibility for maintaining awareness of buildings and grounds security and for reporting concerns that may come to light. We operate within a whole-school community ethos and welcome comments from pupils/students, parents and others about areas that may need improvement as well as what we are doing well.
- Appropriate checks will be undertaken in respect of visitors and volunteers coming onto the premises. Visitors will be expected to sign in and out via the office visitors log and to display a visitor's badge whilst on site. Any individual who is not known or identifiable should be challenged for clarification and reassurance.
- We will not accept the behaviour of any individual (parent or professional) who threatens school security or causes others (child or adult) to feel unsafe. Such behaviour will be treated as a serious concern and may result in a decision to refuse access for that individual to our site.

24. Monitoring and Review

- All staff (including temporary staff and volunteers) will have access to a copy of this policy and will have the opportunity to consider and discuss the contents prior to approval of the Governing Body being formally sought. The policy will also be available to parents/carers.
- This policy has been written in July 2025 to reflect the new guidance and legislation issued in relation to safeguarding children and promoting their welfare which comes into force on 1st September 2025.
- The policy forms part of our development plan and will be reviewed at least annually.
- All staff should have access to this policy and sign to the effect that they have read and understood its contents.
- The policy owner will review the policy following any child protection concerns (including following learning identified from child safeguarding practice reviews) or allegations against staff (even considering learning when they are not substantiated) to ensure that it reflects appropriate, accurate and up-to-date safeguarding practice.

Policy Owner and Contact Details

Barney Geen, Head of School Improvement and Trust DSL
For further information on the Policy, please phone 020 7619 1000
Next Review Date: July 2026

APPENDICES

Appendix 1: Categories of Abuse

All staff should be aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases multiple issues will overlap with one another.

What is Abuse?

A form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. They may be abused by an adult or adults or another child or children. It should be noted that abuse can be carried out both online and offline and be perpetrated by men, women and children. All members of staff should read and understand part one of KCSIE, 2025 and staff who have direct contact with pupils should also read Annex B.

1. **Sexual abuse:** involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children (also known as child-on-child abuse) is a specific safeguarding issue in education (see KCSIE 2025 part 5). We will use the resource [Supporting practice in tackling child sexual abuse - CSA Centre](#)– it includes a 12 part film to aide understanding and knowledge about child sexual abuse, together with free evidence-based practice resources to identify and respond appropriately to concerns of child sexual abuse. We will also use the newly introduced resources from the CSA Centre: [helping education settings to respond to sexual abuse](#) to support our staff.

Signs that may indicate Sexual Abuse

- Sudden changes in behaviour and academic performance
 - Displays of affection which are sexual and age inappropriate
 - Self-harm, self-mutilation or attempts at suicide
 - Alluding to secrets which they cannot reveal
 - Tendency to cling or need constant reassurance
 - Regression to younger behaviour for example thumb sucking, playing with discarded toys, acting like a baby
 - Distrust of familiar adults e.g. anxiety of being left with relatives, a child minder or lodger
 - Unexplained gifts or money
 - Depression and withdrawal
 - Fear of undressing for PE
 - Sexually transmitted disease
 - Fire setting
2. **Physical abuse:** a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Signs that may indicate physical abuse

- Bruises and abrasions around the face

- Damage or injury around the mouth
- Bi-lateral injuries such as two bruised eyes
- Bruising to soft area of the face such as the cheeks
- Fingertip bruising to the front or back of torso
- Bite marks
- Burns or scalds (unusual patterns and spread of injuries)
- Deep contact burns such as cigarette burns
- Injuries suggesting beatings (strap marks, welts)
- Covering arms and legs even when hot
- Aggressive behaviour or severe temper outbursts.
- Injuries need to be accounted for - inadequate, inconsistent or excessively plausible explanations or a delay in seeking treatment should signal concern.

3. **Emotional abuse:** the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Signs that may indicate emotional abuse

- Over reaction to mistakes
- Lack of self-confidence/esteem
- Sudden speech disorders
- Self-harming
- Eating Disorders
- Extremes of passivity and/or aggression
- Compulsive stealing
- Drug, alcohol, solvent abuse
- Fear of parents being contacted
- Unwillingness or inability to play
- Excessive need for approval, attention and affection

4. **Neglect:** the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate caregivers); ensure access to appropriate medical care or treatment and/or provide suitable education. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Signs that may indicate neglect

- Constant hunger
- Poor personal hygiene
- Constant tiredness

- Inadequate clothing
- Missing from home, nursery/School/college, medical appointments including frequent lateness
- Untreated medical problems
- Poor relationship with peers
- Compulsive stealing and scavenging
- Rocking, hair twisting and thumb sucking
- Running away
- Loss of weight or being constantly underweight
- Low self esteem

Appendix 2: Specific Safeguarding Issues

(Also See Annex B of KCSIE 2025)

Child-on-Child Abuse (Allegations of abuse made against other children)

- All members of staff recognise that children are capable of abusing other children. Child-on-child abuse is most likely to include, but may not be limited to:
- bullying (including cyberbullying, prejudice-based and discriminatory bullying);
- abuse in intimate personal relationships between peers;
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse);
- sexual violence, such as rape, assault by penetration and sexual assault; (this may include an online element which facilitates, threatens and/or encourages sexual violence and could take place inside or outside our setting, offline or online)
- sexual violence and harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse;
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- consensual and non-consensual sharing of nudes and semi nudes images and or videos (also known as sexting or youth produced sexual imagery);
- upskirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm; and
- initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element
- We believe that abuse is abuse and it will never be tolerated, dismissed or minimised. Any incidents of child-on-child abuse will be managed in the same way as any other child protection concern and will follow the same procedures, as outlined in this policy, and in accordance with the ISCP Protocol for Managing Child-on-Child Sexual Abuse, Violence and Harassment
- Staff should always use a safeguarding first approach and explain to children that the law is in place to protect them rather than criminalise them. This should be done with tact to avoid alarming or distressing them
- We will take steps to minimise the risk of all forms of child-on-child abuse. We will ensure that appropriate curriculum time is dedicated to enable children to develop an awareness and understanding of abusive behaviour and to ensure that children recognise warning signs and have access to support both within the Setting and externally (such as Islington Police, ChildLine etc.).
- Sharing nudes and semi-nudes or 'Sexting' or 'Youth Produced Sexual Images' will not be tolerated and we will respond to such cases in line with the UKCCIS guidance [Sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

- ‘Upskirting’ is a criminal offence and will not be tolerated. It typically involves someone taking a photograph under a person’s clothes (not necessarily a skirt) without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm. Anyone of any gender, can be a victim.
- Further information about our response to specific allegations of abuse against pupils can be located in (*list relevant policies e.g. behaviour, anti-bullying, online safety etc.*) Further information in relation to the Setting’s approach to “sexting” can be found in the Online Safety Policy. (List how to access)
- All staff to maintain a culture of ‘it could happen here’ and that if inappropriate behaviour is addressed early, this can help prevent abusive/violent behaviour
- Victims of abuse will be distressed, which can affect progress and behaviour. If the child who harmed is at the same Setting, this can be made worse, and consideration needs to be given to this as per the ISCP Protocol mentioned above.
- Girls are more likely to be victims, boys more likely to harm other children, but any child can be affected
- It could be a group of perpetrators or an individual
- Part 5 Should be read alongside the ISCP’s Protocol for Managing Child-on-Child Sexual Abuse, Violence and Harassment (see link above)
- Staff should keep in mind that some children have additional barriers to disclosing due to vulnerability, disability, gender, ethnicity and/or sexual orientation
- Staff should reflect back, using the child’s language, when hearing a report
- Staff should recognise it may only be the first incident reported, rather than representative of a singular incident and that trauma can impact upon memory, so children may not be able to recall all details or timeline of abuse

What to do if you have concerns

- Staff should not wait for a child to make a disclosure, they should act on concerns immediately
- Staff may overhear a conversation that suggests a child may have been harmed or behaviour may be an indicator
- If the report includes an online element, staff may confiscate devices for evidence to hand to the Police - [Searching, Screening and Confiscation](#) can be followed
- Staff can ask children outright if they have been harmed and what the nature of the harm was

Support

- Pupils who have been experienced child-on-child abuse may not feel ready or know how to tell someone they are being abused and will be supported by:
 - Being offered an immediate opportunity to discuss the experience with a member of staff of their choice
 - Being advised to keep a record of concerns as evidence and discussions regarding how to respond to concerns and build resilience, if appropriate.

Pupils who are alleged to have abused other pupils will be helped by

- Discussing what happened, establishing the specific concern and the need for behaviour to change
- Informing parents/carers to help change the attitude and behaviour of the child
- Providing appropriate education and support
- Sanctioning them in line with our behaviour policy. This may include official warnings, detentions, removal of privileges (including denial of online access), fixed term and permanent exclusions.

Speaking with police or other local services (such as early help or children’s specialist services) as appropriate – see [when-to-call-the-police--guidance-for-schools-and-colleges.pdf \(npcc.police.uk\)](#) on when to call the Police.

Next Steps after Initial Report

- The DSLs risk and needs assessment in response to a report of sexual harassment should also consider whether there have been any other victims. The DSL will regularly review the actions taken to respond to reports and
- Regularly review the risk and needs assessment and put active measures in place to safeguard pupils
- Any risk assessment should be informed by any CSC or multi-agency risk assessment

Staff should be aware of the following

- Be aware of and respond appropriately to all reports and concerns about sexual violence and/or harassment both online and offline including any happening outside of the Setting
- Balance the victim's wishes against their responsibility to protect other children
- Remember that sexual violence and sexual harassment can take place within intimate personal relationships between peers
- Think about other related issues and wider context, including any links to CSE and CCE and take the potential for sexual violence and harassment in intimate personal relationships into consideration
- Keep victim and child who harmed a reasonable distance apart on the premises including at, before and after-school/college activities
- Ensure recording practice is comprehensive and accurate
- The DSL should know what the early help process is and how and where to access support
- The previous restrictions on the use of Police bail have been removed – the Police will now consider what action to take to manage the assessed risk of harm, this could include the use of Police or court bail.

Harmful Practices

So called 'Honour-based' abuse (HBA)

- Staff and volunteers are aware that so called 'Honour-based' abuse (HBA) encompasses a range of crimes which have been committed to protect or defend the honour of the family and/or the community, including Female Genital Mutilation (FGM), forced marriage, and practices such as breast ironing.
- The indicators of HBA and associated factors will be covered with staff within the safeguarding training. All members of staff are alert to the possibility of a child being at risk of HBA or already having suffered HBA. All members of staff are aware that all forms of HBA are abuse (regardless of the motivation) and will be handled and escalated as such. Staff will speak with DSL if they are concerned about HBA.

Female Genital Mutilation (FGM)

- FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to female genital organs. It is illegal in the UK and a form of child abuse.
- As of October 2015, the Serious Crime Act 2015 (Home Office, 2015) introduced a duty on teachers (and other professionals) to notify the police of known cases of female genital mutilation where it appears to have been carried out on a girl under the age of 18.
- We will operate in accordance with the statutory requirements relating to this issue, and in line with local safeguarding procedures. Whilst all staff should speak to the DSL with regard to any concerns about FGM, there is a specific legal duty on teachers.
- If a teacher, in the course of their work in the profession, discovers that an act of FGM appears to have been carried out on a girl under the age of 18, the teacher must report this to Police 101. See Annex B of KCSIE, 2025 for further detail and [Summary of Mandatory FGM reporting duty](#)
- If there are concerns that a girl is going to be cut, the DSL should complete the ISCP FGM Risk Assessment Tool (contact Heather.vacciana@islington.gov.uk) to identify the relevant indicators and inform further action (we will call Police 999 if a girl is at immediate risk of harm as a result of the risk assessment)
- The DSL will complete the FGM e-Learning package ([FGM E-Learning Course – National FGM Centre](#))

- The DSL will also ensure that information and training is made available as appropriate to all members of staff. This includes [FGM The Facts](#)
- All members of staff will follow this policy and ISCP procedures, using existing national and local protocols for multi-agency liaison with police and children's social care.

Forced Marriage and Under-age Marriage

- A forced marriage is one entered without the full consent of one or both parties. It is where violence, threats or other forms of coercion is used, and it is a crime.
- Our staff understand how to report concerns where this may be an issue. We will contact the Forced Marriage Unit for advice or information on 020 7008 0151 or email fm@fco.gov.uk.
- The Forced Marriage Unit has published [Multi-agency guidelines](#), with pages 32-36 focusing on the role of Schools and colleges. Staff should report concerns regarding forced marriage to the DSL or can contact the Forced Marriage Unit if they need advice or information
- Since February 2023 any marriage that takes place under the age of eighteen years, whether there is consent or coercion, is illegal.

Abuse linked to a belief in Spirit Possession Or Witchcraft

Abuse linked to a belief in 'spirit possession' or 'witchcraft' is a global issue that is not confined to particular countries or cultures. These are harmful to children and reported numbers are small although it is believed many go undetected. The nature of the abuse can be particularly disturbing and the impact on the child serious. There are links between 'spirit possession' and 'witchcraft' and exploitation in that belief in magic or witchcraft may be used to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation.

The term 'spirit possession' means that a force, spirit, god or demon has entered a child and is controlling him or her resulting in a change in health or behaviour. Sometimes the term 'witch' or 'witchcraft' is used. This is the belief that a child can use an evil force or supernatural powers to harm others. Terminology examples are black magic, kindoki, ndoki, the evil eye, djinns, voodoo, obeah and child sorcerers. Families, carers and the children involved can hold genuine beliefs that evil forces are at work and be deeply worried by the evil that they believe is threatening them. There may also be an element of the adult gaining some gratification through the ritualistic abuse of the child, which may even result in the death of the child.

Vulnerability

In cases of 'spirit possession' or 'witchcraft' which involve children, the parent/carer views the child as 'different' and attributes this to the child being 'possessed'. This can lead to attempts to exorcise the child.

The reasons for being 'different' can be varied, and include disobedience, independence, bedwetting, nightmares or illness. In some cases, there will be no obvious difference, and the child will have been targeted because they are perceived to be 'spiritually' different. The attempt to exorcise may involve beating, burning, starvation, cutting/stabbing and/or isolation within the household, all of which obviously constitute abuse.

Things to Look Out For

Indicators of abuse linked to belief in spirit possession, which may also be common features in other kinds of abuse, include:

- A child reporting that they are, or have been, accused of being 'evil', and/or that they are having the 'devil beaten out of them'.

Signs of physical abuse

- A child becoming noticeably confused, withdrawn, disorientated or isolated;
- Personal care deteriorating;

- Attendance becoming irregular or child being taken out of school altogether;
- A deterioration in a child's performance at school;
- Lack of parental concern or attachment.

What to do if you are concerned

Everyone working with children has a responsibility to recognise and know how to act on evidence, concerns and signs that a child's health, development and safety is being or may be threatened, especially when they suffer or are likely to suffer significant harm.

Standard child safeguarding procedures apply and must always be followed in all cases where abuse or neglect is suspected including those that may be related to particular belief systems

- Contact the DSL immediately or make a referral to Children's Social Care

Cybercrime

Advice on preparing for online challenges and hoaxes is available here [Harmful online challenges and online hoaxes - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/harmful-online-challenges-and-online-hoaxes). All Staff are expected to complete an online course on cyber security: <https://www.ncsc.gov.uk/information/cyber-security-training-Schools>

Cybercrime is criminal activity committed using computers and/or the internet. Cyber Choices aims to intervene where children are at risk of committing, or being drawn into, low level cyber-dependent offences and divert them to a more positive use of their skills and interests. Cyber Choices does not currently cover 'cyber-enabled' crime such as fraud, purchasing of illegal drugs on-line and child sexual abuse and exploitation, nor other areas of concern such as on-line bullying or general on-line safety. Additional advice can be found at: Cyber Choices, '[National Cyber Security Centre - NCSC.GOV.UK](https://www.ncsc.gov.uk/information/cyber-security-training-Schools)

Child abduction and community safety incidents

Child abduction is the unauthorised removal or retention of a minor from a parent or anyone with legal responsibility for the child. Child abduction can be committed by

- parents or other family members;
- by people known but not related to the victim (such as neighbours, friends and acquaintances); and
- by strangers.

Other community safety incidents in the vicinity of a Setting may raise concerns amongst children and parents, for example, people loitering nearby or unknown adults engaging children in conversation. As children get older and are granted more independence (for example, as they start walking to school on their own) We will give practical advice on how to keep themselves safe. We will provide outdoor-safety lessons run by teachers or by local Police. The lessons will focus on building children's confidence and abilities rather than simply warning them about all strangers.

Further information is available here: [Home - Action Against Abduction](#) and [Home - Clever Never Goes](#)

Modern Slavery and the National Referral Mechanism (NRM)

Modern slavery is linked to human trafficking and slavery, servitude and forced or compulsory labour. Exploitation can take many forms, including sexual exploitation, forced labour, slavery, servitude, forced criminality and the removal of organs. Further information on the signs that someone may be a victim of modern slavery, the support available to victims and how to refer them to the NRM is available in the Modern Slavery Statutory Guidance. Modern slavery: how to identify and support victims - [Modern slavery - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/modern-slavery)

Appendix 3: Keeping children and yourself safe when responding to disclosures

Staff are encouraged to be professionally curious as it is vital for the early identification of abuse and neglect. They should try to understand the daily life of the child and explore any indicators of abuse and neglect to fully assess any potential risk by having a holistic view and understanding and this means not taking things at face value by exercising respectful uncertainty.

1. Receive

- Keep calm
- Listen to what is being said without displaying shock or disbelief
- Take what is being said to you seriously

2. Respond

- Reassure the pupil that they have done the right thing in talking to you
- Be honest and do not make promises you cannot keep e.g. "It will be alright now"
- Do not promise confidentiality; you have a duty to refer
- Reassure and alleviate guilt if the pupil refers to it e.g. "you're not to blame"
- Reassure the child that information will only be shared with those who need to know

3. React

- React to the pupil only as far as is necessary for you to establish whether or not you need to refer the matter, but do not interrogate for full details
- Do not ask leading questions; "Did he/she....?" Such questions can invalidate evidence.
- Do ask open "TED" questions; Tell, explain, describe
- Do not criticise the child who harmed; the pupil may have affection for him/her
- Do not ask the pupil to repeat it all for another member of staff
- Explain what you must do next and who you must talk to

4. Record

- Make some brief notes at the time on any paper which comes to hand and write them up as soon as possible
- Do not destroy your original notes
- Record the date, time, place, any non-verbal behaviour and the words used by the child. Always ensure that as far as possible you have recorded the actual words used by the child.
- Record statements and observable things rather than your interpretations or assumptions

5. Remember

- Contact the DSL
- The DSL may be required to make appropriate records available to other agencies

6. Relax

- Get some support for yourself, dealing with disclosures can be traumatic for professionals

Appendix 4: Sexual violence and sexual harassment between children

Context

- Our school emphasises a zero-tolerance approach to sexual violence and sexual harassment and understand the need to create a supportive environment for our children. Sexual violence and sexual harassment can occur between two children of any age and sex. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.
- Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, likely, adversely affect their educational attainment as well as their emotional well-being. Sexual violence and sexual harassment exist on a continuum and may overlap; they can occur online and offline

(both physically and verbally) and are never acceptable. It is important that all victims are taken seriously and offered appropriate support.

- Reports of sexual violence and sexual harassment are extremely complex to manage. It is essential that victims are protected, offered appropriate support and every effort is made to ensure their education is not disrupted. It is also important that other children, adult students and school and college staff are supported and protected as appropriate.

Policy

- We believe that all children have a right to attend school and learn in a safe environment. Children should be free from harm by adults in the Setting and other children.
- We recognise that children can abuse their peers and this will be dealt with under our child protection policy and in line with KCSIE 2025.
- We are clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up
- We will minimise the risk of child-on-child abuse by:

Prevention

- Taking a whole Setting approach to safeguarding and child protection
- Providing training to staff
- Providing a clear set of values and standards, underpinned by our behaviour policy and pastoral support system, and by a planned programme of evidence-based content delivered through the curriculum.
- Engaging with specialist support and interventions.
- Using a clear reporting system for staff and pupils, that is well promoted, easily understood and accessible
- Recognising that it may be taking place, even if not reported
- Publicising the Setting's zero-tolerance approach to abuse
- Online safety, including mobile phone usage during school or college hours

Responding to reports of sexual violence and sexual harassment:

- Children making a report of sexual violence or sexual harassment will be taken seriously, kept safe and be well supported.
- If the report includes an online element staff will be mindful of the guidance [Searching, Screening and Confiscation \(publishing.service.gov.uk\)](#) Staff taking a report will inform the DSL as soon as possible
- Staff taking a report will never promise confidentiality.
- Parents or carers will normally be informed (unless this would put the child at greater risk).
- If a child is at risk of harm, is in immediate danger, or has been harmed, a referral will be made to Children's Social Care.
- We use the Lucy Faithfull Foundation [harmful sexual behaviour toolkit](#), which provides support, advice and information on how to prevent this harmful sexual behaviour and provides resources to support our staff to respond to reports of sexual violence and harassment and use.
- We will also signpost children to the Lucy Faithfull '[shore space](#)' website, which offers a confidential chat service supporting children worried about their own or some else's sexual thoughts and behaviours.

Risk Assessment

Following a report, the DSL will make an immediate risk and needs assessment on a case-by-case basis. The Risk assessment will consider:

- The victim, especially their protection and support.
- The alleged child who harmed, their support needs and any appropriate sanctions.

- All other children at the Setting.
- The victim and the alleged child who harmed sharing classes and space at school.
- The risk assessment will be recorded and kept under review.
- Where there has been other professional intervention and/or other specialist risk assessments, these professional assessments will be used to inform the Setting's approach to supporting and protecting pupils.

DSL considerations and response

The DSL will consider:

- The wishes of the victim.
- The nature of the incident including whether a crime has been committed and the harm caused.
- The ages of the children involved.
- The developmental stages of the children.
- Whether there is a power imbalance between the children/young people.
- Any previous incidents.
- Ongoing risks.
- Other related issues or wider context.

Options

The DSL will then consider the following options:

- Manage internally
- Early Help
- Refer to Children's Social Care
- Report to the police (generally in parallel with a referral to Social Care)

Ongoing Response:

- The DSL will manage each report on a case-by-case basis and will keep the risk assessment under review.
- Where there is a criminal investigation into a rape, assault by penetration or sexual assault, the alleged child who harmed should be removed from any classes they share with the victim.
- The DSL will consider how best to keep the victim and other child a reasonable distance apart on the premises and on transport where appropriate.
- Where a criminal investigation into a rape or assault by penetration leads to a conviction or caution, we will take suitable action. In all but the most exceptional of circumstances, the rape or assault is likely to constitute a serious breach of discipline and lead to the view that allowing the other child to remain in the same Setting would seriously harm the education or welfare of the victim (and potentially other pupils or students).
- Where a criminal investigation into sexual assault leads to a conviction or caution, the Setting will, if it has not already, consider any suitable sanctions in light of their behaviour policy, including consideration of permanent exclusion.
- Where the child who harmed is going to remain at the Setting, the principle would be to continue keeping the victim and child who harmed in separate classes and continue to consider the most appropriate way to manage potential contact on the premises and transport. The nature of the conviction or caution and wishes of the victim will be especially important in determining how to proceed in such cases.
- The victim, alleged child who harmed and other witnesses (children & adults) will receive appropriate support and safeguards on a case-by-case basis.
- We will impose any appropriate sanctions against the child who harmed in line with our behaviour policy.
- We recognise that implementing sanctions and providing appropriate support are not mutually exclusive actions and will occur at the same time if necessary.

Physical Abuse

- While a clear focus of child-on-child abuse is around sexual abuse and harassment, physical assaults and initiation violence and rituals from pupils to pupils can also be abusive.
- These are equally not tolerated and if it is believed that a crime has been committed, will be reported to the police.
- The principles from the anti-bullying policy will be applied in these cases, with recognition that any police investigation will need to take priority.
